

First Data[™] Restaurant Solution

Maximizes efficiency and profit-building potential for small and independently owned restaurants.

Streamline Your Restaurant Business

The First Data™ Restaurant Solution replaces your cash register and payment terminal with one easy-to-use system that lets you manage every aspect of your business. By combining a high-performance integrated computer system and specialized software with advanced payment processing, you'll gain efficiencies and maximize profit-building potential.

Your customers will have the option of paying by Visa®, MasterCard®, American Express®, Discover® or Diners Club International®. In addition, they may settle their bill using a PIN or contactless debit card (FD-30 PIN pad purchase required) or gift card.

With the First Data Restaurant Solution, you will:

- Process guest checks, track tips and turn tables faster
- Boost sales with discounts, special meal combos and other promotions
- Improve security and prevent loss
- Eliminate paper-based tracking and other administrative tasks

**Manage your restaurant
just like the big guys.**

Features and benefits every restaurant can afford

- **Automates menu management**—Easily create, revise and customize menus or pricing. A new feature allows you to design your own customer loyalty program.
- **Automates order management and accuracy**—From printed kitchen tickets to add-ons and guest checks. Automatically generates separate checks or splits menu items among checks.
- **Tracks sales and ordering patterns**—With specific menu-item data, you'll be equipped to make smarter purchasing and menu-planning decisions.
- **Automates employee management and compensation**—Keeps track as employees move from job function to job function, allowing you to run accurate end-of-shift reports and settle up with each worker.
- **Enhances security**—By defining security levels for each employee, you'll reduce theft and shrinkage while empowering your best employees.
- **Intelligent data**—Choose from 70 different reports that give you real-time insight into sales activity, employee performance, payroll and more.

Simple, dependable operation

- **Easy setup and full installation support**—It's easy to configure the system's features to meet your specific needs, and initial menu setup is included.
- **No monthly maintenance fees**—Includes a four-year warranty and customer service support.
- **Reliable components**—Touch-screen CPU, designed for the restaurant environment, means no worries about spills.
- **Intuitive operation**—All functions are easy to find and use, with multiple ways to complete tasks. Fewer touches mean more time to serve customers.
- **Efficient guest-check management**—The system's customer database empowers servers to recognize regular diners and their preferences and pre-authorize credit cards for open tabs.

Just don't pay like
the big guys.
